Accredited Accounting Technicians
香港財務會計協會

Accounting Technician Examination (ATE) - December 2008

Paper 4 – Information Technology Applications in Accounting

Au Yin Ping

Job title: Clerk

Company: Buddhist Mau Fung Memorial College

Miss Au graduated with a Bachelor of Science (Biology) from the University of Hong Kong. She studied for the examination by herself.

Thoughts from Miss Au:

Though I do not have much chance to use Excel software in my current position, I am glad to have learnt many practical Excel functions when studying for this paper. I believe this knowledge will benefit my life and career. The AAT syllabus is a set of coherent accounting and business knowledge. The foundation knowledge acquired in Paper 1 – Financial Accounting is critical when studying for the IT applications paper. I urge students to practise past examination papers as some of the points that come up in these past papers may not be covered in the textbooks.
