Thoughts from Miss Chan:

I managed to study all the past examination papers available before sitting for the examinations. The learning process was really interesting and enjoyable.

Examination preparation is not just a matter of memorizing formulae and principles from books. The ability to apply your knowledge to real-life situations is very important in preparing for every examination. I found that the skills and knowledge acquired in the ATE and PBE have greatly enhanced my confidence in handling my daily job, and will be beneficial to my future career.
