

Top Students in the December 2009 Accredited Accounting Technician (AAT) Examination

Paper 8 - Principles of Auditing and Management Information Systems

Wong Ka Hei

Mr. Wong is a student at the Hong Kong School of Commerce. He graduated with a Diploma in Accounting Studies and is studying the Higher Group Diploma (Accountancy).

Thoughts from Mr. Wong:

In the last examination session in June 2009, I was awarded the Top Student prize for Paper 5. I am so surprised and delighted to know that I am one of the top students again in this session.

I remember that when I started studying this subject, I encountered many difficulties since it was an entirely new subject to me. I found the concepts difficult to understand. Fortunately, with the patience and guidance of my teachers, Mr. H. K. Lui and Ms. Y. S. Chong, I began to grasp the meanings and principles of this subject thoroughly. Therefore, I would like to take this opportunity to thank them for their kind support.

Constant revision is always effective. It helps you to be well-prepared for the examination, especially for this subject. I believe that through persistent efforts, other candidates can also do as well as I did!
