

Top Students of Accredited Accounting Technician (AAT) Examination December 2010 session

Paper 3 - Management Accounting

Yip Tsz Chung

Mr. Yip is a student at the Chinese University of Hong Kong. He is studying the Bachelor of Business Administration. He studied for the examination by himself.

Thoughts from Mr. Yip:

I am very honoured to be awarded the top student prize for this paper. I would like to take this opportunity to thank my alma mater, St. Joseph's College, and my accounting teacher for providing me an excellent education in Principles of Accounts in my earlier years: this has laid the essential foundation of my accounting knowledge.

I am currently a year one student pursuing the Bachelor of Business Administration at the Chinese University of Hong Kong. I am not majoring in accounting but I have a strong interest in it. This is why I decided to take the AAT Examination, studying for it by myself. After completing the AAT Examination, I plan to further challenge myself with the PBE. My ultimate goal is to achieve the CPA qualification through the Qualification Programme offered by the Hong Kong Institute of CPAs.

Having a clear study scheme is crucial to examination success. Practising on pilot papers and past papers can help as it tests whether one possesses adequate knowledge and skills as required for the examination.
