Accredited Accounting Technicians
香港財務會計協會

Top Students of Accredited Accounting Technician (AAT) Examination December 2010 session

Paper 4 - Business Economics and Financial Mathematics
Paper 5 - Principles of Taxation

Li Shan Shan

Job title: Senior Accountant
Industry: CPA firm

Miss Li studied for the examination by herself.

Thoughts from Miss Li:

Since my work load is heavy, I needed to plan ahead to balance my work and study. The materials provided by the HKIAAT are my main study aids. What I have done so far is to stick to my study plan. I start my revision two months prior to the examination. I usually spend between two and four hours per day studying during weekdays and weekends respectively. I believe that there is no magic answer to examination success: only hard work and discipline can make your dream come true.
