Top Students of Accredited Accounting Technician (AAT) Examination December 2010 session

Paper 6 - Fundamentals of Business Law

Lau Ngai Fai

Mr. Lau is a student at the Hong Kong Institute of Vocational Education (Kwun Tong). He is studying the Higher Diploma in Accountancy and Information Systems. He studied for the examination by himself.

Thoughts from Mr. Lau:

I am extremely grateful to be awarded the top student prize for this paper.

Business law contains a lot of details which can be quite difficult to study. However, the knowledge acquired through the study is valuable and interesting. We should understand the contents thoroughly before memorizing them. We can then transform these formal wordings into own words using our own interpretation. This also makes revision more effective and efficient.
