## **Top Students of Professional Bridging Examination (PBE) December 2010 session**

Paper III - PBE Auditing and Information Systems

### **Tai Wai Yeung**

Job title: Manager

Company: Mass Logistics Ltd.

Mr. Tai graduated with a Bachelor of Science from the University of Hong Kong. He completed the Preparatory Programme for PBE Paper III at the University of Hong Kong's School of Professional and Continuing Education (HKU SPACE).

### ***Thoughts from Mr. Tai:***

I am very surprised but honoured to be awarded as the top student in this paper. This award will motivate me to study even harder in the future.

Other than expressing my thanks to the HKIAAT and my family for their support, I am pleased to share my study method with others. Indeed, good time management is very important for study. We should make sure that we have enough time to revise and to prepare for the examinations, and allocate our time properly to each question during the examination. My study method is simple: firstly, read and understand thoroughly the study materials such as text books, past papers and reference notes. Secondly, review and practice questions regularly. Thirdly, discuss and ask questions with classmates and lecturers.
