Top Students of Professional Bridging Examination (PBE) December 2010 session

Paper II – PBE Management Accounting and Finance

Leung King Wan

Job title: Senior Auditor
Company: D K Mak & Co.

Mr. Leung graduated with a Higher Diploma in Accounting from the VTC School of Business and Information Systems. He studied for the examination by himself.

Thoughts from Mr. Leung:

I want to take this opportunity to thank my first accounting teacher, Ms. Sit, who always encouraged me to study after school and gave me a good foundation to my accounting knowledge. Also, I want to thank D K Mak & Co, my first employer in my accounting career, for providing me with a positive learning environment.

Many say that the standard of the post-80s generation is lower than that of those born in the 60s and 70s. Hong Kong is a result-oriented city. We tend to ignore basic qualities such as sense of responsibility, patience and persistence. Yet these are the essential success ingredients.

While having a result-oriented mindset is important, I would recommend that young people be more conscious of the learning process as this can bring benefits to our work and study.
