

Accounting Technician Examination (ATE)

Paper 1 – Financial Accounting & Paper 3 – Cost Accounting

Au Yin Ping

This was the first time Miss Au took the Accounting Technician Examination. She is currently working as a School Clerk at Buddhist Mau Fung Memorial College.

Thoughts from Miss Au:

When I first started working for the school, my job position did not involve any accounting duties. After working in the school for three years, I was given a chance to perform some accounting duties for few months. Though I had learnt some basic accounting concepts before, I found my accounting knowledge was not enough to perform the job well. Therefore, I decided to take the AAT exam.

I think the AAT exam covers the fundamental accounting knowledge which helped me perform my job more easily. Time allocation is very important for a self-study student. I used to plan my schedule carefully and allocate a fixed amount of time each week to study. Sometimes I had to sacrifice my social activities to spend time studying, but it was worth it.
