Book-keeping and Accounts Examination (BAE) June 2008

Tong Chung Kit Adrian

Mr. Tong is a Form 7 student at Saint Joseph's College.

Thoughts from Mr. Tong:

To get a high mark does not only require hard work, but also interest and commitment to the subject. Some say that accounting is dull with its systematic and monotonous working style. Nevertheless I think that accounting is a combination of techniques, business sense and examples from daily life. Hence I always find it thought-provoking when doing accounts, and feel that this is one of the reasons why I achieved a good mark in the exam.
