

Top Students of June 2009 Accredited Accounting Technician (AAT) Examination

Paper 6 - Fundamentals of Business Law

Au Yin Ping

Job title: General Clerk

Organization: Buddhist Mau Fung Memorial College

Miss Au graduated with a Bachelor of Science (Biology) from The University of Hong Kong. She studied for the examination by herself.

Thoughts from Miss Au:

I have never studied law before. In the past, when I read news about some court cases in the newspaper, I even could not understand some of the terms. After taking this examination, I have better understanding about law. Topics such as the court's system, differences between criminal and civil laws, etc are useful and applicable to my daily life.

I am a self-study student and mainly studied the textbook bought from the HKIAAT. As this subject was totally new to me, it was hard for me to understand the textbook at first. I even did not realize that those numbers shown in the text are referring to the ordinance numbers. When I know about this, I read the details of the ordinances listed at the HKSAR Government's website. There are many cases listed in the textbook, as those cases have been summarized, I searched the internet for more details of such cases in order to get a whole picture about them.
