

## **Top Students of June 2009 Professional Bridging Examination (PBE)**

Paper II - PBE Management Accounting and Finance

### **Lau Ka Wai**

Job title: Senior Accounts Clerk

Company: GZI Transport Limited

Miss Lau completed the Preparatory Programme for PBE Paper II at the HKU School of Professional and Continuing Education.

### **Thoughts from Miss Lau:**

I am very honoured to be awarded as the Top Student for this paper. I would like to take this opportunity to thank my lecturer and my employers for their kind support.

I am also glad to share my study strategies with you:

1. Start to study as early as possible to ensure that you are well prepared;
2. Practising past papers at least three times can help you understand the basic concepts and how to present and elaborate on your answers; and
3. Know your weaknesses and strengths, and then formulate a tailor-made study plan that suits one's needs.

Basically, working hard is the key to success. During the examination, time management is also very important. You should not spend too much time on one question. You may answer those questions you are familiar with first. Last but not least, correct spelling, clear writing and logical answers are useful in obtaining better results. I hope the above suggestions will be useful to exam candidates.
