

Top Students of June 2009 Accredited Accounting Technician (AAT) Examination

Paper 8 - Principles of Auditing and Management Information Systems

Ng Sui Kai

Job title: Accounts Clerk

Company: Best Fine (HK) Limited

Mr. Ng is a F.7 graduate. He completed the Diploma in Accounting Studies - Paper 8: Principles of Auditing and Management Information Systems at the Hong Kong Management Association.

Thoughts from Mr. Ng:

I am very lucky to be awarded as the Top Student. I would like to share my study experience. I started my accounting study by taking the AAT examination preparatory courses and now I am studying the Preparatory Course PBE Paper I: Financial Accounting at the Hong Kong School of Commerce. After each lesson, I spend time reviewing the notes. Revision is very important in getting good results.

Although my English is not good, I have no difficulties in understanding the audit concepts and principles. The accounting textbook gave me a clear picture on the subject. The way I studied the textbook was like reading a story book. Before the examination, I reviewed my notes more than 10 times as I believe that revision is very important.

So if I can do it, you can do it too!
