Thoughts from Mr. Wong:

I was surprised to be awarded as the Top Student for this paper. I would like to express my heartfelt thanks to my teacher, Ms. C. F. Leung. She helped me to cope with the examination and I am really grateful for her guidance and encouragement.

Paying attention in class and constant revision helped me to understand the topics more thoroughly. Moreover, practising past examination papers was an essential process in preparing for the examination. These are my study methods and I believe that good preparation and diligence are the keys to being successful in the examination.
