Top Students of Accredited Accounting Technician (AAT) Examination in June 2010 session

Paper 1 – Fundamentals of Accounting and Computerized Accounts

Ho Chun Yu

Miss Ho completed the Preparatory Programme for AAT Paper 1 at the University of Hong Kong's School of Professional and Continuing Education (HKU SPACE).

Thoughts from Miss Ho:

Firstly, I would like to take this opportunity to thank the HKIAAT for providing us with a flexible way to learn the basic accounting knowledge. I am honoured to receive the Top Student prize, and I am indeed surprised.

During the study process, I found that experience sharing could help me understand the accounting theories more thoroughly. Therefore, I am very grateful to my employers and teachers, both present and past. In fact, without their support and encouragement, I probably would not have progressed so steadily and attained such a good result. So this honour is not solely mine.

If you are currently not highly educated, don't look down on yourself. Remember that both study and work will benefit you tremendously in your pursuit of higher education.
