### ***Thoughts from Miss Sin:***

It is my honour to be awarded the Top Student prize for this paper. I wanted to become a CPA, so I took the PBE to bridge the knowledge gap to pave my way to study HKICPA's Qualification Programme. Also PBE is well-recognized and affordable. In my view, you need to have good preparation as well as good examination techniques for this paper. The application of the knowledge to real-life situations and good time management are essential too. Finally, you will find the efforts that you have put in is worthwhile.
