

## **Top Students of Accredited Accounting Technician (AAT) Examination in June 2010 session**

Paper 5 – Principles of Taxation

### **Sit Wing Chung**

Mr. Sit is a student at the Hong Kong School of Commerce. He graduated with a Diploma in Accounting Studies and is studying the Higher Group Diploma in Accountancy.

#### ***Thoughts from Mr. Sit:***

I was really thrilled and amazed when I realized that I was the Top Student in Paper 5. This is totally unexpected. I would like to take this opportunity to thank Ms. Olivia Leung, my teacher for taxation at the Hong Kong School of Commerce. She explained class materials very clearly and with patience. I learnt a great deal from her.

Frankly speaking, I felt stressed when I was preparing for the AAT Examination in May and June. This was because I needed to handle the school examinations and three AAT Examination papers at the same time. I was worried that I could not do well in these examinations. During these two months, I studied extremely hard. I did a lot of past papers and reviewed all the exercises given by the teachers. Whenever I could not figure out the solution, I asked my classmates and we discussed the questions together. This was a good revision method because we could help and learn from each other. I would like to express my heartfelt thanks to my classmates. Without their support, I would never achieve such a good result. This reward has boosted my confidence and I will do my best in the coming examinations.
